

Komaki Co., Ltd.

CORPORATE PROFILE

Message

Message from the President

This year marks the 67th anniversary of our company.

Over the years, we've changed our businesses five times and have continued to change.

However, there are two things that have remained unchanged since our founding.

We believe that our adherence to and practice of the two themes, "If there is someone in need, we will extend a helping hand based on what's right or wrong, not profit or loss," and "Step by step, steadily forward," have made us a "first call company" (a company that customers call first when they're in need) and "a company that consistently continues to make small changes."

The pandemic dramatically changed our lives and livelihood.

The future will bring change at an even faster pace, making things even more unpredictable than they are now.

The only thing that will not change is the fact that the world will always continue to change.

That's why we will continue to be a "first call company," to "continue to make small changes" without resting on our laurels, and to "continue to reach out" to our customers.

Our goal is to become an indispensable infrastructure for the infinite possibilities of food.

We want to be a company that continues to learn and grow together with our customers, suppliers and employees, over the centuries.

We strongly hope to serve as a reliable consultant for our customers.

代表取締役 小牧 繁雄

KOMAKI CORPORATE SLOGAN
